Front Pin First Rules

The Normal rules shall apply except for the following:-

42. The pins to be counted are those which are struck down after the front pin has been directly hit by a ball fairly bowled causing it to fall, whether or not the front pin is the first to fall.
43. After the front pin has been struck down by a direct hit, the bowler may knock down any pin or pins remaining on the frame with the remaining ball or balls and those also are scored.
44. Any pins struck down leaving the front pin standing stay down but are not counted in the score except in the case of a spare ball.
45. To score a spare a bowler must either:-
 - a. Strike the front pin first ball, causing it to fall, and clear the remaining pins with his second ball; or
 - b. Have a "flopper" off the front pin with his first ball or if this goes through, with his second ball; or
 - c. Having removed part of the frame with his first ball leaving the front pin standing, hits the front pin down together with the rest of the frame with his second ball.
46. In the case of a. and b. all pins are reset for the spare ball but in the case of c. only those pins struck down with the second ball are reset. Thus if he hits six off a quarter pin with his first ball and hits the remaining three pins with his second ball only those three pins are reset for the spare ball. Thus he can score 3, 4, 5 or 6 according to the pins knocked down with the spare ball.
47. Having achieved a spare a bowler may hit down any pin or pins with his spare ball and all count in his score.
48. If a bowler first strikes any pin but the front, except with a spare ball or balls and the front pin is knocked down by either the ball or a loose pin, then it stays down and the bowlers score for the hand is nil.
49. To eliminate controversy during the game both Captains together should ensure the sticker-up is aware of the pins to be replaced in the event of a spare.
50. In the event of a "no ball" being called all pins struck down stay down and are not to be included in the players score, but the player can play his remaining ball(s) and can thereby hit a score. If the front pin is struck down by a "no ball" the players hand is over.
